

FullCapitalStack™ is a technology platform that provides an opportunity to source investments from a broad range of real estate sponsors. Unparalleled access to real estate investments across the United States.

How it Works

Individuals and institutions can source, review, invest in and manage investments with a FullCapitalStack account. A single log-in and dashboard make investments easy to review, compare and track.

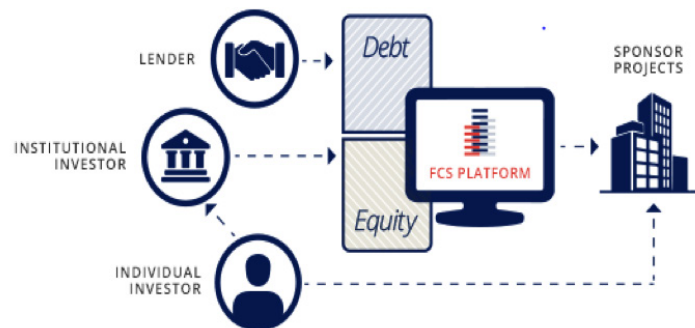

FCS Deal Flow

FullCapitalStack™ sister company, Investor Management Services™ (IMS), provides private label solutions that attract, engage and manage investors for the real estate sponsor. Through FullCapitalStack™, investors will have access to IMS client offerings. Source investments across many sponsors, locations and asset types.

Investor Management Services™ (IMS) and the real estate sponsor create a digital deal room that allows investors to view offering details and documents.

- Offerings are aggregated and easily organized for review
- Access to one dashboard for viewing investment performance across sponsors, assets and platforms
- No cost deal sourcing and management
